In accordance with the Architects Registration Act, Cap 297, the design, preparation of building plans and supervision of construction works of any buildings in Uganda is the responsibility of **Registered Architects with valid Practicing Certificates** issued by **The Architects Registration Board**.

The General public and in particular, private developers of projects with building structures, are duly informed, that they are required by Law to secure **Approved Building Plans** for their buildings from the relevant Local Authorities before they start construction works. The public is further warned that use of un-qualified persons for purposes of design and supervision of building sites in Uganda is prohibited by law.
